$300,000.00

Total Budget:
$6,686,326.00

Disasters:

Declaration Number

FEMA-1971-AL

Narratives

Disaster Damage:

On April 27, 2011, Alabama was hit by 62 tornadoes which took the lives of 248 people, damaged or destroyed 23,000 homes, and ruined hundreds of other structures, including commercial, industrial and governmental structures. At least 2,794 of the damaged/destroyed homes were located within the City of Birmingham, Alabama. Within 48 hours after the storms of April 27, 2011, City Building Inspection staff completed a block-by-block assessment of damages to structures as a result of these storms. This assessment identified 1,859 structures in the City of Birmingham that suffered structural damage. These structures included the above-referenced 2794 dwelling units (some structures included multi-family residences), along with numerous commercial properties. The inspectors also assessed the percentage of damage to each structure and recorded that data by street address. These damage estimates were then compared to Jefferson County Tax Assessor&rsquos records. By multiplying each property&rsquos percentage of damage by the Tax Assessor&rsquos valuation for the structure, it was determined that there was a total dollar amount of physical damage to structures in the City of Birmingham of $44,200,166.75.
>Two &lsquowaves&rsquo of storms hit Birmingham on April 27th---one in the morning that moved in a west-to-east direction and damaged properties from Five Points West, West End, Smithfield, Northside, East Birmingham, East Lake and Roebuck. The big storm&mdashan F-4 tornado hit Birmingham at about 6 pm on the 27th. This second storm smashed into the Pratt City Community, and the Hooper City Neighborhood. Over 2200 (83%) of the 2,794 homes damaged in Birmingham were damaged in the Pratt Community!

Recovery Needs:

In response to the needs identified in the Needs Assessment (above), the City&rsquos Plan for Disaster Recovery focuses on the North Pratt Neighborhood.
>&bull North Pratt is the poorest neighborhood in the Community which experienced 83% of the damages from the April 2011 disaster
>&bull North Pratt is the neighborhood that received the most damage to housing and infrastructure in combination
>&bull The RUDAT Plan identified the priority need for the City to re-build community facilities and to re-establish linkages between residents and facilities (including transit) in a walk-able community
>&bull North Pratt&rsquos housing stock was heavily damaged and extremely underinsured. Most victims remain displaced to this day
>&bull The lack of a permanent fire station in Pratt leaves the neighborhood in a situation where it must be covered by a temporary facility and adjacent facilities. Clearly, this is less than desirable for the residents of this low-moderate income community
>&bull The reconstruction of infrastructure, public facilities and housing anticipated in this plan will &lsquoprime the pump&rsquo and foster an environment that sets the table for future re-building

Public Comment:

On Wednesday, May 30, 2012, the Action Plan was made available for public comment via the City of Birmingham&rsquos Department of Community Development&rsquos website. The Action Plan was also published in two newspapers, The Birmingham News and The Birmingham Times. The public comment period began on Wednesday, May 30, 2012 and ended at 5:00 pm CST on Monday, June 11, 2012.

>In accordance with the citizen participation waiver and alternative requirement published in the Federal Register &ldquoto permit a more streamlined process, and ensure disaster recovery grants are awarded in a timely manner provisions of 42 U.S.C. 5304(a)(2) and (3), 42 U.S.C. 12707, 24 CFR 570.486, 24 CFR 91.105(b) and (c), and 24 CFR 91.115(b) and (c), with respect to citizen participation requirements, are waived and replaced by the&hellip.streamlined requirements do not mandate public hearings at a state, entitlement, or local government level, but do require providing a reasonable opportunity (at least 7 days) for citizen comment and ongoing citizen access to information about

use of grant funds.&rdquo As a result of this waiver, no public hearing was held.

>The public comment notifications were published in English, but Spanish translation was accessible. This enhanced the ability of persons with limited English proficiency to provide comment. The following efforts were made to advertise the public comment period.
>· On May 29, 2012, a letter advertising the comment period was distributed to a list of contacts including City Council Members, Neighboring municipalities, and neighborhood organizations.
>· On May 30, 2012, the City of Birmingham posted the notice to the Department of Community Development&rsquos website.
>· On May 31, 2012, the City of Birmingham published an ad in The Birmingham News advertising the public comment period.
>· On May 31, 2012, the City of Birmingham published an ad in The Birmingham Times advertising the public comment period.
>Written comments were also accepted by e-mail, fax, mail, or hand delivery to the following address.
>Mail: Community Development Department
> City Hall/Room 1000
> 710 20th Street North
> Birmingham, AL 35203
>E-mail: CommunityDevelopment@birminghamal.gov
>Fax: (205) 254-2282

>No comments were received during the 12 day comment period. However, in accordance with regulations the City of Birmingham would have considered all comments and changes to the Action Plan would have been implemented where necessary.

Total Funds Expended	$0.00	$0.00
Match Contributed	$0.00	$0.00

Activity Description:

Costs will cover construction of new housing units. Approximately 359 residential dwellings were destroyed in the Pratt City neighborhood as a result of the April 27, 2011 natural disaster. The demolition of those homes has resulted in an accumulation of vacant lots. The City of Birmingham proposes to use nearly $1.5 million for the purpose of acquisition and new construction within the Pratt City neighborhood. In order to have a cohesive community and to limit gaps, grant funds will be used to assist with the construction of new replacement housing in the devastated area. Home subsidy limits will be used to determine the maximum amount of assistance available per house.

Location Description:

New construction will take place in the Pratt City neighborhood.

Activity Description:

Fire Station #18 located in North Pratt area will undergo a renovation to include ADA compliance, additional space to allow for a rescue unit, a safe house, and a generator. During the tornadoes on April 27, 2011 the City of Birmignham's Fire Station #18 was severely damaged by high winds and airborne debris. The buildings roof was extensively damaged in addition to windows being borken by airborne debris. As a result of this damage, winds infiltrated the building destroying the interior rooms and building contents. The majority of the interior space experienced water/wind damage that included damaged ceilings, light fixtures, insulation, electrical service and kitchen cabinets.

Location Description:

200 Dugan Avenue, Birmingham, AL in the North Pratt area
Latitude: 33.53879/Longitude: -86.879285
The City of Birmingham is experiencing complications inputting the necessary census tract information. The City of Birmingham is able to select the census tract corresponding to the above address and calculate the LMA in DRGR. The result of this calculation is 58%; however, when the HUD Representative reviews the Action Plan he sees differing information for the census tract. We have taken Mr. Mark Mitchell's advice to provide this narrative while we work to resolve the problem.
