INDEPENDENT AUDITOR'S REPORT

To the Pension Board of the
City of Birmingham Firemen's and Policemen's
Supplemental Pension System
Birmingham, Alabama

We have audited the accompanying financial statements of the City of Birmingham Firemen's and Policemen's Supplemental Pension System (the Plan), which comprise the statement of fiduciary net position as of June 30, 2015, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the City of Birmingham Firemen's and Policemen's Supplemental Pension System as of June 30, 2015, and the changes in its financial status for the year then ended in accordance with accounting principles generally accepted in the United States of America.

October 27, 2015

**THE CITY OF BIRMINGHAM
FIREMEN'S AND POLICEMEN'S
SUPPLEMENTAL PENSION SYSTEM
NOTES TO FINANCIAL STATEMENTS**

1. PLAN DESCRIPTION

City of Birmingham Firemen's and Policemen's Supplemental Pension System- This system covers sworn firemen and policemen and provides retirement benefits for twenty or twenty-five years of service. Membership is mandatory for such personnel and is effective upon employment. Employees hired prior to May 2, 1978, contribute 3.3% of payroll, exclusive of overtime; those hired on or subsequent to May 2, 1978, contribute 5.22% and the City matches these amounts. The plan is funded by contributions from employees, the City, and income from the investment of accumulated funds. The plan was established by state law and is administered by a board of managers.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Estimates - The preparation of financial statements prepared in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Deposits & Investments - Cash and cash equivalents include cash on hand, demand deposits, savings accounts, and short-term investments with maturities of three months or less at the time of purchase.

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Investment transactions are recorded on the trade date. Realized gains and losses from sales of securities are determined using the average cost basis. In accordance with the provisions of the Plan in order to state investments at market value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in pension net position.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from The Segal Group, Inc. and it is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2015 were (a) life expectancy of participants (using the RP-2000 Mortality Table), (b) retirement age assumptions, and (c) investment return. The assumed average rate of return for the 2014 valuation was 7%. The actual rate of return, which excluded the employer contributions and benefit payments, was 8.34%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**THE CITY OF BIRMINGHAM
FIREMEN'S AND POLICEMEN'S
SUPPLEMENTAL PENSION SYSTEM
NOTES TO FINANCIAL STATEMENTS**

3. FUNDING POLICY

The contribution requirements of the plan members are established and may be amended by the State Legislature. Plan members were required to contribute 5.22% of their annual covered salary in 2015. The City was required to contribute at a rate of 5.22% of the employees annual covered salary for 2015. All contributions made during 2015 were cash contributions. Administrative costs of the Plan are financed through investment earnings.

4. BENEFITS

A participant retiring after 20 years of credited service is entitled to a benefit which is calculated as 50% of final average salary.

The Plan also provides adjusted benefits, in the case of early retirement and death or disability of a participant. Benefit provisions are established and may be amended by the City.

5. VESTING

Participants are at all times fully vested in their individual contributions to the Plan. Participants become fully vested in the retirement benefits attributable to them under the Plan, upon the completion of twenty years of continuous service with the City as a Public Safety employee .

6. INVESTMENTS

The Plan's investments were held by Regions Bank, as custodian for the Plan during 2015. The fair value of the Plan's investments are as follows:

	<u>2015</u>	
	<u>Market</u>	<u>Cost</u>
Cash	\$ 1,451,869	\$ 1,451,869
U.S. Treasury Bonds & Notes	428,455	442,182
U.S. Government Agencies	3,577,088	3,467,178
Domestic Corporate Bonds & Notes	11,467,580	11,637,131
Accrued Interest & Dividends	162,811	162,811
Alternatives	5,307,388	5,000,000
Equities	28,481,946	25,711,322
	<u>\$ 50,877,137</u>	<u>\$ 47,872,492</u>

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	<u>2015</u>
Equities	\$(9,615,048)
Fixed Income Investments	1,308,266
Other	<u>4,794,510</u>
	<u>\$(3,512,272)</u>

SUPPLEMENTAL PENSION SYSTEM
NOTES TO FINANCIAL STATEMENTS**

6. INVESTMENTS (Continued)

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration (period of time to maturity or redemption) is the primary measure of the sensitivity of investment risk. The Plan has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Board of Managers recognizes that some risk is necessary to produce long-term investment results that are sufficient to meet the Plan's objectives. However, the investment managers are to make reasonable efforts to control risk, and will be evaluated regularly to ensure that the risk assumed is commensurate with the given investment style and objectives.

Custodial Credit Risk is the risk that the party holding the funds might not be able to pay those funds to the Trust upon maturity or demand. Bank deposits are covered by federal depository insurance (FDIC) or are collateralized by a multiple financial institution collateral pool administered by the State Treasurer.

Concentration of Investments

The Plan did not hold investments in any one organization that represented 5 percent or more of the Pension Plan's fiduciary net position.

Fair Value of Investments

Investments are reported at fair value, based on quoted market prices.

7. NET PENSION LIABILITY:

The components of the net pension liability of the Plan at June 30, 2015 were as follows:

Total Pension Liability	<u>\$ 124,041,855</u>
Plan Fiduciary Net Position	<u>50,844,883</u>
The Plan's Net Pension Liability	<u>\$ 73,196,972</u>
Plan Fiduciary Net Position as a percentage of Total Pension Liability	40.99%

Actuarial Assumptions:

The total pension liability was determined by an actuarial valuation as of July 1, 2014, using the following actuarial assumptions, applied to all periods included in the measurement, with the results rolled forward to June 30, 2015:

Inflation	3.00%
Salary increases	3.00%, plus age-related salary scale based on participant group
Investment rate of return	7.00%, including inflation, net of pension plan investment expense

Health Mortality rates were based on the sex distinct RP-2000 Combined Healthy Mortality Table, set forward two years for both males and females. Disabled Mortality rates were based on the sex distinct RP-2000 Disabled Retiree Mortality Table, multiplied by 70%. The current tables were determined to contain a margin of 8% to anticipate future mortality improvement based on the review of mortality experience for the 2005-2010 period.

**THE CITY OF BIRMINGHAM
FIREMEN'S AND POLICEMEN'S
SUPPLEMENTAL PENSION SYSTEM
NOTES TO FINANCIAL STATEMENTS**

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an experience study for the period July 1, 2005 to June 30, 2010.

7. **NET PENSION LIABILITY (Continued):**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	54%	6.7%
Core fixed income	34%	1.6%
Hedge funds	<u>12%</u>	3.6%
Total	100%	

Discount rate: The blended discount rate used to measure the total pension liability was 5.67%. The projection of cash flows used to determine the discount rate assumed contributions will continue to be made at 5.22% of compensation from plan members and 5.22% of compensation from the City. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are excluded, as are projected employee contributions from future plan members. Based on these assumptions, the System's fiduciary net position was not projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the System's investments was applied to the first 21 periods of projected benefit payments and a 3.80% municipal bond rate was applied to all periods thereafter to determine the total pension liability. The 3.80% municipal bond rate was based on the S&P Municipal Bond 20 Year High Grade Rate Index as of June 25, 2015.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County, calculated using the discount rate of 5.67%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (4.24%) or one-percentage-point higher (6.24%) than the current rate:

	1% Decrease (4.67%)	Current Discount (5.67%)	1% Increase (6.67%)
Plan's net pension liability	\$79,520,117	\$73,196,972	\$67,299,582

8. MEMBERSHIP INFORMATION

Membership of the Plan consisted of the following at July 1, 2014, the date of the latest actuarial valuation:

Active employees	1,467
Retired Participants and Beneficiaries	<u>363</u>
	<u>1,830</u>

9. DATE OF MANAGEMENT'S REVIEW

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through October 20, 2015, the date the financial statements were available to be issued.

FIREMEN'S AND POLICEMEN'S
SUPPLEMENTAL PENSION SYSTEM
REQUIRED SUPPLEMENTARY INFORMATION
FOR YEAR ENDED JUNE 30, 2015**

Schedule of the Employer's Contributions

	<u>2015</u>	<u>2014</u>
Actuarially Determined Contributions	\$ 6,038,436	\$ 5,839,810
Contributions in Relation to the Actuarially Determined Contributions	<u>4,212,776</u>	<u>4,090,689</u>
Contribution Deficiency (Excess)	<u>1,825,660</u>	<u>1,749,121</u>
Covered Employee Payroll	80,407,165	78,050,785
Contributions as a Percentage of Covered Employee Payroll	5.24%	5.24%

Notes to Schedule:

The actuarial valuation includes an actuarially determined contribution which is set equal to the scheduled contribution for each year based on determining an effective amortization period that achieves the scheduled contribution. The schedule of contributions under the funding policy may be subject to revision if the effective amortization period becomes unreasonable or otherwise if conditions change in a way that requires reevaluating the funding policy. Historical information prior to implementation of GASB 67/68 is not required.

**THE CITY OF BIRMINGHAM
FIREMEN'S AND POLICEMEN'S
SUPPLEMENTAL PENSION SYSTEM
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

1. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows.

Valuation date	7/1/14
Actuarial cost method	Entry Age Normal Cost
Amortization method	Level percent of payroll, using 3.0% annual increases
Remaining amortization period	Rolling 30 years
Asset valuation method	Market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the market value, and is recognized over a 5 year period, further adjusted, if necessary, to be within 20% of the market value.

Actuarial assumptions:

Investment rate of return	7.00%, including inflation, net of pension plan investment expense
Projected salary increase	3.00%, plus age-related salary scale based on participant group
Inflation rate	3.00%
Cost of living adjustments	N/A
