Failure to adhere to any or all terms, conditions and specifications as set forth in the contract may result in the immediate termination of the contract. Should termination occur, the holder of the contract may be declared a "non-responsible vendor". This declaration may result in the rejection of any future bids submitted by the vendor for a period of time to be determined by the City.

No bid may be withdrawn for a period of sixty (60) days after the date of the bid opening.

The City will issue purchase order(s) to the successful bidder for the goods and/or services (bid items) that are the subject of the bid. The City shall be allowed to order at any time, in any quantity during the life of this contract.

Bidders may quote any or all groups of interest. **Bidders are not required to bid every group in order to be eligible for award(s).**

Bidder must be an authorized stocking distributor for any product line offered to the City for consideration.

All prices quoted are to be free of all Federal, State and local taxes. The City will complete Federal tax exemption certificates for the vendor(s) as required and the City is exempt from all State and Local taxes.

SPECIFICATIONS FOR THE SUPPLY OF NEW MOBILE EQUIPMENT TIRES

Awards will be made only for premium grade, first (1st) line tires. Tires offered and furnished are to be nationally recognized as a quality level tire meeting or exceeding the Original Equipment (OE) tire that was mounted on the equipment when sold by the original equipment manufacturer. The tires must be listed in the manufacturer's regular published State Net Price List that is to be submitted with the bid. No promotional, economy, special produced, second (2nd) tier tires, blemished, unlisted and/or special listed tires will be eligible for consideration.

All tires are to be of current production and must carry all markings currently required by the Federal Government at the time of shipment and must be in compliance with all applicable regulations. All tires bid shall be at a minimum equivalent to those manufactured as original equipment for domestic autos and light/medium & commercial trucks.

Flaps are to be included with any tube type tire the City may purchase during the life of the contract. All tires quoted as a "pursuit" tire shall be of radial construction and of a high speed stability design providing protection against high speed blowout and chunk-out. The tire must have been tested and approved for "pursuit" tire applications. Bidder is to include with the bid documentation from the manufacturer substantiating the approval. The sixteen (16) inch pursuit tire must have a speed rating of no less than "V" and the seventeen (17) and eighteen (18) inch pursuit tire no less than a "W" rating. The City acknowledges that some manufacturers provide the pursuit tires only in a directional tread design, however, for practical purposes the City's preference is for a non-directional tread design. Bidders are to bid only tires of a non-directional design.

All radial medium/commercial truck tires will carry a minimum of a two (2) year carcass warranty for the purpose of recapping.

Bidders must attach a copy of the manufacturer's warranty applying to **all** tires offered the City. Warranty information must include protection against defective material, workmanship and failure to perform in accordance with required performance criteria.

Prices quoted are to be **F.O.B. delivered, City of Birmingham, Municipal Garage - Tire Shop, 515 6th Avenue South, Birmingham, AL. 35205.** All associated delivery costs are to be calculated into the prices quoted. **No delivery surcharges of any nature will be allowed.**

Consideration will be given to service and distribution facilities. The successful bidder(s) shall be required to maintain an adequate inventory and delivery service to properly service the City as its requirements demand. The City reserves the right to inspect any potential vendor's equipment, inventories, personnel, locations etc., to verify that potential vendor has the ability to properly service the City's requirements before any award is made.

The City has limited storage space. Prompt delivery shall be an essential requirement for each of the Groups. **For Group's 1, 2, & 3** the City will place inventory orders on a day to be agreed upon with the successful vendor(s) each week. Delivery of these Group's inventory orders should be no later than 2:30 p.m. the following day. Emergency orders should be delivered within a four (4) hour time period. Back-orders should be delivered no later than five (5) working days after order was placed.

For Group's 4 & 5 the City will place inventory orders weekly on a day to be agreed upon with the successful vendor(s). Delivery of these Group's orders should be no later than two (2) working days following order placement. Emergency orders should be delivered within one (1) day of order placement. Back-orders should be delivered no later than seven (7) working days after the order was placed.

The failure to deliver orders for any Group in a consistent manner will constitute grounds for the termination of this contract and the declaration of the vendor as a "non-responsible vendor", which will result in the rejection of any future bids submitted by the vendor.

SPECIFICATIONS FOR THE SUPPLY OF NEW MOBILE EQUIPMENT TIRES

PRICING STRUCTURE:

Due to the impracticality of listing each and every size, grade level, and performance level within the same tire size, all bidders shall quote this bid invitation with written assurance to the City that any and all tires, within a group, that are not shown in the size and type charts of the Bid Form shall be furnished to the City of Birmingham at the same rate of discount as shown on the tires so quoted.

Each bidder when quoting shall furnish with the bid, the manufacturer's "Net State Price List" covering all the tires being offered the City for consideration. The price list must show the current Net State price and the effective dates. If the manufacturer bid has no Net State Price List, a Wholesale Price List may be submitted. Any price list submitted must include **all** of the manufacturer's available tire grades and sizes within the particular group being quoted. Bidders are to indicate in the spaces provided on the Bid Form, any discount rate that will apply to the submitted price sheets. **These price sheets combined with any stated discount rate will be used to determine the City's price for any and all tires not shown on the Bid Form.** Discount rate is to be a **fixed, flat rate** for each tire group specified. **Do not quote discount ranges for a tire group (ex: Passenger Car Tires: 30 – 50%) .** In the case of Light Truck/SUV tires where there may be an overlap of tires classed as light truck and/or passenger car, bidders may quote two flat rates of discount if different rates apply.

Failure to provide price sheets with the bid could result in the outright rejection of the bid from consideration. **No other price sheets may be submitted during the life of this contract except as noted in Paragraph 2 on page 2.**

While the City's preference is that one manufacturer cover an entire group, the City realizes that in some cases vendors may be required to offer more than one manufacturer's product lines in order to completely quote the group. The City will accept any such bid as reasonable. Bidders **must** include price sheets from **all** manufacturers quoted and state applicable discount rate for each manufacturer's price sheets submitted.

Each bid for **Groups 1, 2, & 3** must have attached a statement of certification by an authorized official of the manufacturer of the tires offered the City, to the effect that said manufacturer endorses the proposal made to the City, and that said proposal is in accordance with these specifications; also, that the manufacturer will be responsible for the performance of any contract entered into as a result of said proposal. This certification must be signed by an official representing the manufacturer with an executive capacity of no less than Vice-President of said manufacturer.

BRANDING REQUIREMENT:

All tires in **Group 3 (Medium/Commercial Truck)** are to be branded with the initials, "**COB**" in one inch (1") high letters on one side of the tire sidewall before delivery to the City. The successful bidder shall be required to furnish the branding iron. Bidder shall indicate the cost of such branding in the space provided on the Bid Form and the price quoted shall remain in effect for the life of the contract. **The price quoted will be a consideration of award.**

Further, Contractor hereby waives any rights of subrogation against the City. All general or automotive liability coverage provided herein shall not prohibit the Contractor or its employees, agents, or representatives from waiving the right of subrogation prior to loss or claim.

Proof of Coverage: Before the commencement of services or work hereunder, the Contractor shall provide the City a certificate(s) of insurance and endorsements (including the additional insured endorsements) evidencing compliance with the requirements in this section. Evidence of insurance will not be accepted on a per event basis. These certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days advance notice to the City. In the event that the City is not notified that any of the coverage required herein is to be canceled or changed in such a manner as to not comply with the requirements of this Contract, the Contractor shall, within fifteen (15) days prior to the effective date of such cancellation or change, obtain and provide the City with binder(s) of insurance evidencing the re-establishment of the insurance coverage required herein.

Indemnification: Vendor(s) shall defend, indemnify, and hold harmless the City of Birmingham, and its agents, employees and officials (hereinafter the "Indemnitees") from and against all demands, actions, damages, judgments, expenses (including but not limited to attorneys' fees, expert fees, court costs and other litigation costs), losses, and claims (including those for bodily injury, sickness, disease or death, or to injury to, destruction or loss of use of tangible property) (collectively hereinafter "Claims") by any third parties (including any employee, subcontractor or representative of the Vendor, hereafter a "Vendor Representative") that arises out of, relates to, results from, or is attributable to any of the following: (a) Vendor's performance or failure to perform its obligations hereunder; (b) any conditions in or about the work sites that the Vendor or any Vendor Representative may encounter; or (c) the use or occupancy of the work sites by Vendor or any Vendor Representatives. This indemnification obligation includes Claims that are caused in part by the negligence of an Indemnitee(s); provided nothing herein shall obligate Vendor to indemnify any of the Indemnitee(s) for Claims resulting from the sole negligence or from the willful misconduct of the Indemnitee(s).

SPECIFICATIONS FOR THE SUPPLY OF NEW MOBILE EQUIPMENT TIRES

Safety: The successful vendor(s) ("Vendor") warrants that it has inspected or will inspect the work sites before performing the services and work contemplated hereunder ("services").
