

January 28, 2010

Addendum #1

On January 11, 2010 the City of Birmingham invited bids for police department and Jail dress uniform items for the City of Birmingham, said bid to be opened at 2:00 p.m. February 9, 2010.

PLEASE NOTE:

1. On Page 18, item #6, the paragraph stating that the rainwear parka must be an off the shelf item and that the manufacturer must have ten (10) references with 250 or more personnel using the parka should be removed.
2. On Page 18, item #8, the paragraph stating the parka shall be a stock product and be published in a bound catalog should be removed.
3. On Page 21, the last paragraph stating that the rainwear pant must have ten (10) references with 250 or more personnel using the pants should be removed.
4. On Page 21, under **ADDITIONAL REQUIREMENTS:** should read; "Failure to provide proof of ISO certification will be cause for rejection."
5. The specifications outline the details of a Rainwear Parka. On the bid form it is listed as jacket. These are one and the same item and the terms refer to the high visibility yellow outer garment. The fleece liner is a separate item and refers to the optional inner garment.
6. The specification for the Rainwear Parka is incomplete. The Rainwear Parka shall accommodate an optional inner fleece liner. The fleece liner is **NOT** to be included in the base bid price of the jacket. Bidder is to provide a separate price for the fleece liner as indicated on the bid form. The fleece liner shall attach to the jacket with two (2) inside zippers (one on each side of the jacket shell) and a loop (with snap) at the end of each sleeve. The inside zippers shall have a protective flap sewn over the end to prevent accidental unzipping of the liner.
7. The parka shall have a Birmingham Police Department patch to be screen printed (3 color screen) on the left sleeve, on the shoulder area, above the reflective tape. A current sample of the patch is available.
8. The specification for the Rainwear Pant is incomplete and incorrect. The current specification states that the "front pocket shall run from the waistband to the top of the cargo". This is incorrect. It should be changed to read: the front pocket shall run from the waistband, under-lap the cargo pocket and be approximately 15" deep at its deepest point for a large pair of pants. Other sizes should scale appropriately. The pocket shall have a standard rounded bottom.

There shall be two cargo pockets, one on each leg, bar tacked at the four bottom corners. The cargo pocket(s) shall be approximately 9" wide at the top, taper to approximately 7 5/8" at the bottom and be approximately 9" deep. The cargo pocket(s) shall be centered on the side seam. The right cargo pocket shall have a double pen pocket placed on the front bottom corner. Each pen pocket shall measure approximately 1 1/2" wide by 6" high. The cargo pocket(s) shall have two (2) pleats (one on each side) with each fold measuring approximately 3/4" and 1 1/2" when expanded. The pleats shall be folded to the inside so that the pocket appears flat. The cargo pocket shall also have a flap approximately 9" wide and 3" tall. The flap shall be double layered with a backing material for added stiffness. The flap shall close with two (2) snaps. The snaps shall be secured to the inside layer and backing material so that when the flap is complete the snaps are hidden. The bottom corners of the flap shall be rounded to prevent curling. The seams of the flap shall be approximately 1/4" and be bar-tacked at each side where it attaches to the pant. The cargo pocket shall also have a zipper closure underneath the flap. The zipper shall run the width of the pocket.

9. A sample of the rainwear to be submitted with the bid remains a requirement.
10. A corrected Bid Form is enclosed.
11. Bid opening has been postponed until 2:00 p.m. February 16, 2010.
