

MAYOR'S PROPOSED OPERATING BUDGET FISCAL YEAR 2009

CITY DEBT MANAGEMENT

The principal forms of indebtedness that the City is authorized to incur include general obligation bonds, general obligation warrants, general obligation bond anticipation notes, revenue anticipation notes, gasoline tax anticipation bonds, and warrants relating to enterprises. In addition, the City has the power to enter into certain leases which constitute a charge on the general credit of the City, guarantee obligations of certain public corporations and to enter certain funding agreements with regard to the obligation of other public agencies. General obligation warrants, certain revenue anticipation bonds, warrants and notes and capitalized lease obligation may be issued or incurred without voter approval. Except for private activity revenue bonds, for which the City has no liability, and the City's Water and Sewer Revenue Warrants, which are payable solely from the revenues derived from the City's water works and sewer system, the City has not issued any revenue bonds or revenue bond anticipation notes during the past 40 years.

General Obligation Bonds Debt Service

Debt service on the City's general obligation bonds (the issuance of which must be approved by referendum except in the case of refunding bonds) is paid from the General Debt Service Fund (the "Bond Fund"). The proceed of a 9.2 mill ad valorem tax for bond debt service and 2.8 mill ad valorem tax for school bond debt service, both authorized by the Constitution of Alabama of 1901, are customarily paid into the Bond Fund. In addition to these ad valorem tax proceeds, interest earnings from investment of Bond Fund balances are customarily deposited into the Bond Fund.

The City has projected that the Bond Fund will continue to be sufficient to provide for debt service on its outstanding bonds. This projection is based on a number of assumptions - including bond interest rates, rate of increase of ad valorem tax collections, and investment earnings - that the City considers reasonable; however, the future availability of sufficient funds in the Bond Fund cannot be guaranteed.
