#### 1.0 Introduction

The U.S. Environmental Protection Agency (EPA) has initiated procedures for Black & Veatch Special Projects Corp. (Black & Veatch) to provide technical assistance (TA) through the Stormwater/Green Project Funds for the project "Strengthening the MS4 Program and Innovative Uses of Green Infrastructure for the City of Birmingham, Alabama."

This Work Plan for TA has been prepared by Black & Veatch under EPA Region 4 Remedial Action Contract (RAC) II Number EP-S4-09-02, under specific authorization through Task Order (TO) No. 076-RDRD-04N3. A copy of the TO Statement of Work (SOW) is included in Attachment A. This Work Plan describes the tasks that the Black & Veatch project team will perform in providing technical and administrative assistance to the EPA. The period of performance (POP) to complete this TO ends January 30, 2016.

#### 1.1 SITE DESCRIPTION

A description of the Site is included in the SOW included in Attachment A.

#### 1.2 SCOPE OF WORK

The purpose of this task order is to provide TA to EPA for strengthening the MS4 (municipal separate stormwater sewer system) program in the City of Birmingham. The EPA SOW, dated August 27, 2015, and the scoping meeting, conducted September 3, 2015, defined the tasks to be included in the TA Work Plan as follows:

- Task 1 Project Planning and Support
- Task 2 Expert Technical Assistance
- Task 3 –Task Order Closeout

# 2.0 Technical Approach

This section of the Work Plan describes the technical approach to the tasks to be performed under this TO in providing technical support to the EPA. Task numbers correspond to the EPA work breakdown structure (WBS) for the RAC program for performing TA activities and provide a manageable and efficient means of budgeting and tracking project activities. These tasks, as described within the EPA SOW, and as defined during the scoping meeting, will be performed under Black & Veatch project number 049078 as discussed below.

Each task number will be used to account for the associated costs for project activities. The cost estimates for the tasks associated with the Work Plan activities are included as Attachment B of this Work Plan.

#### 2.1 TASK 1 – PROJECT PLANNING AND SUPPORT

This task includes all necessary activities to plan, execute, and manage the tasks specified in the EPA SOW.

- **Subtask 1.1 Project Planning.** The subtasks presented below include activities involved in preparing the Work Plan.
  - 1.1.1 Attend Scoping Meeting.

Labor Category	Hours	Description	Assumptions
Engineer Mid-Level	2	The scoping meeting was a conference call held on	The Black & Veatch Program Manager (PgM), Deputy PgM, Project Manager (PM)/Task Order
Program Manager	2	September 3, 2015, to discuss the TO for the purpose of developing the	Manager (TOM), and Mid-Level Engineer participated in the scoping meeting.
Project Manager	2	Work Plan.	Meeting minutes were submitted to the Contract Officer Representative (COR) on September 8,
Total Hours	6		2015. The subtask includes effort for preparation for meeting, meeting attendance, and preparation and review of the meeting minutes.

#### 1.1.2 Develop Work Plan and cost estimate.

<b>Labor Category</b>	Hours	Description	Assumptions
Clerical	3	This Work Plan/cost estimate	The Work Plan will specify the necessary
Engineer Mid-Level	10	(Rev 0) is being developed to include a detailed description of the technical approach for	procedures, inspections, deliverables, and schedules including a comprehensive implementation schedule for completion of
Program Manager	1	the TA activities in accordance with the SOW and scoping	each major activity and submittal. Per the SOW and the scoping meeting conducted
Project Manager	4	meeting.	September 3, 2015, the Work Plan, Rev 0, is scheduled to be submitted on September
Quality Assurance (QA)/ Quality	1		18, 2015.
Control (QC)			Effort for negotiating and submitting a revised work plan has not been included, as
Total Hours	19		discussed during the scoping meeting.

- **1.1.3 Negotiate Work Plan and cost estimate.** As directed by EPA in the SOW, no costs are included for this subtask.
- 1.1.4 Provide conflict of interest disclosure.

<b>Labor Category</b>	Hours	Description	Assumptions
Clerical	2	Black & Veatch will search its	A minimal amount of effort will be
		corporate project database(s)	required.
		and will provide to the EPA a	
Total Hours 2		conflict of interest (COI)	
		disclosure based on the	
		outcome of that search.	

- **Subtask 1.3 Project Management.** Project management activities are those planning and support tasks that provide project control and ensure that all project activities are performed according to scope, accurately, efficiently, and on schedule.
  - 1.3.1 Monitor costs and prepare periodic status reports. The Black & Veatch Project Manager (PM)/Task Order Manager (TOM) will maintain project control. The PM/TOM will be responsible for keeping the EPA informed of the direction of project work; compliance with schedules and budgets; performance of reviews, content, and format of review comments; and day-to-day work coordination and monitoring of project staff.

The PM/TOM is also responsible for providing the EPA technical, financial, and schedule status reports on a monthly basis throughout the life of the project. The PM/TOM will discuss individual subtasks with the COR before and after each work event to facilitate consistent and thorough cost control. Informal accounting of costs will be provided at the request of the COR for individual task events. Highly qualified personnel with appropriate professional backgrounds will be assigned to perform project tasks.

Quality Control (QC) will be carried out in accordance with the Black & Veatch Corporate Quality Assurance Program Policy, relevant EPA Region 4 requirements as outlined by the Region 4 Quality Assurance Officer, and the Quality Assurance Project Plan (QAPP) developed for the TO. Ultimate responsibility for QC rests with the PM/TOM, although various QC personnel will assist the PM/TOM.

Labor Category	Hours	Description	Assumptions
Accountant	8	Effort has been estimated to	Prepare monthly financial reports.
Clerical	6	prepare and submit 6 monthly financial and technical status	Produce reports.
Project Manager	3	reports from September 2015 through February 2016.	PM/TOM will prepare the monthly reports.
Program Manager	3		Report, project review, and monitor quality and financial reports.
Total Hours	20	7	

- 1.3.2 Meeting Participation and Routine Communication. No costs are included for this subtask.
- 1.3.3 Accommodate EPA Audit. Black & Veatch will accommodate any external audit or review mechanism the EPA shall require. No costs are included for this subtask.

#### 2.2 TASK 2 – EXPERT TECHNICAL ASSISTANCE

#### Subtask 2.1 Project Meetings

Labor Category	Hours	Description	Assumptions
Engineer Mid-Level	36	Coordinate and attend meetings with City Staff, ADEM and ASCE	Proposed modification of the     Scope to include only 2 meetings
Project Manager	22	per the Scope.	with ASCE and to combine PM
Total Hours	58	<ul> <li>Kickoff meeting with City PM</li> <li>2 meetings with City Engineering and PM</li> <li>2 meetings with ASCE</li> <li>1 meeting with City Attorney and PM</li> <li>1 meeting with ADEM</li> </ul>	<ul> <li>meetings with other City staff meetings.</li> <li>Kickoff meeting with City PM via conference call.</li> <li>2 trips to meet with ASCE (twice), ADEM (once), and City Staff as available.</li> <li>Additional meetings with City Staff via conference call.</li> <li>Travel expenses will include two trips from Philadelphia, PA, to Birmingham, AL one being an overnight trip, and two trips from Atlanta, GA, to Birmingham, AL.</li> </ul>

#### Subtask 2.2 Review Relevant Requirements and Implementation Approach

Labor Category	Hours	Description	Assumptions
Engineer Mid-Level	60	Black & Veatch will identify and	Review to be limited to 6 existing
Engineer - Senior	8	review 6 City or State Post-	MS4 Permits/Post Construction
		Construction Stormwater	Regulations.
Project Manager	2	Regulations, develop a tabular	<ul> <li>Tabular presentation of results</li> </ul>
		summary of the control criteria,	
Total Hours	70	flexibility and re-development	
		controls/incentives, and make	
		recommendations specific to	
		Birmingham. Also will make	
		recommendations as to	
		integration of common elements	
		of MS4 program and Watershed	
		Management Plans.	

#### Subtask 2.3 Update City of Birmingham Specific Long-term Rainfall Analyses

Labor Category	Hours	Description	Assumptions
Engineer - Junior  Engineer - Mid-level	36 4	Black & Veatch will conduct a spreadsheet based statistical analysis of historical rainfall data to determine storm frequencies	<ul><li>City to provide rainfall analysis conducted previously.</li><li>Conduct frequency analysis on</li></ul>
Engineer - Senior Project Manager	8	and depth. The analysis of the rainfall time-series data will consist of wet weather event	<ul> <li>historical data from up to 3 existing rain gages in the City.</li> <li>Reduction estimates to consider</li> <li>2 different control consider</li> </ul>
Total Hours	50	identification, event depth totals, and be used to determine the cumulative frequency distribution (CDF) of event depths. The CDF can be used to determine the rainfall exceedance risk, which can be used as a basis for determining a percent reduction in potential runoff for water quality volume controls.  Black & Veatch will consider potential climate change impacts on precipitation characteristics under each of the control scenarios by assuming a conservative percent change in rainfall characteristics as predicted in available climate change tools, EPA or other.	<ul> <li>3 different control scenarios (to be defined in consult with the City and based on the rainfall analysis and the results of Task 2.3).</li> <li>Black &amp; Veatch will use readily available climate change planning tools. No detailed research to be conducted on climate impacts in Birmingham.</li> </ul>

#### Subtask 2.4 Review Guidance Documentation for Implementing Runoff Controls

Labor Category	Hours	Description	Assumptions
Engineer Mid-Level	36	BV will review available City	City will provide all relevant
Engineer Senior	4	documentation, identify gaps relevant to stormwater	documentation such as guidelines, ordinances, plan
Project Manager	2	management and make recommendations for	review process, etc.  Black & Veatch will provide
Total Hours	42	modifications or additions necessary to implement Post Construction Stormwater requirements within the City. BV will review and consider ADEM's LID Handbook as a potential resource for the City.	technical recommendations related to stormwater management regulations, but will not provide detailed ordinance language, legal opinions or review of roles and responsibilities within the City.

#### Subtask 2.5 Documentation

Labor Category	Hours	Description	Assumptions
Clerical	8	Three Tech Memos will be	A Tech Memo will be produced and
Engineer Mid-Level	36	produced to document the outcome of Subtasks 2.2-2.4.	submitted to the City of Birmingham upon the completion of each of
Engineer Senior	4	These Tech Memos will be primarily comprised of tables and	Tasks 2.2, 2.3 and 2.4.
Project Manager	4	figures documenting our findings followed by recommendations	
Total Hours	52	based on these results.	

#### 2.3 TASK 3 – WORK ASSIGNMENT/TASK ORDER CLOSEOUT

This task concerns activities that are part of the project closeout once the stop work modification is initiated for the TO.

- Subtask 3.1 Package and return documents to the government. Package and Return Documents to the EPA. Once all work is completed, Black & Veatch will prepare the project files for transfer to the EPA for archiving.
- Subtask 3.2 File Duplication, Distribution, and Storage. (Included in Subtask 14.1) This subtask involves the duplication of files, as necessary, in order to distribute the files to other repositories. Damaged files and portions will be reproduced before storage.
- Subtask 3.3 File Archive. (Included in Subtask 14.1) In performing this subtask, Black & Veatch will prepare files for archiving to meet Federal Record Center requirements.
- Subtask 3.4 Produce Microfiche/Microfilm/Optical Disk or Other EPA-Approved Storage Format. (Included in Subtask 14.1) This subtask involves the copying of files on compact disks.
- Subtask 3.5 Prepare Work Assignment/Task Order Close-out Report (TOCR). A TOCR, in accordance with the regional guidance, will be prepared. This report summarizes all work performed under this assignment.

Labor Category	Hours	Description	Assumptions	
Clerical	2	Document	Return Documents to the EPA - Preparation will include the	
		closeout and	following activities:	
Program Manager	2	storage.	Collecting all project related documents (including)	
			<ul> <li>subcontractor files, as appropriate).</li> <li>Organizing the documents into a master file with an index.</li> <li>Reviewing the master file for technical content.</li> <li>Completing a file inventory.</li> </ul>	
Project Manager 1			File Duplication, Distribution, and Storage Black & Veatch will duplicate all project files, as necessary, in order to prepare a complete set of documents for distribution to the EPA. Black & Veatch will also prepare a set of project specific files suitable for storage by Black & Veatch.	
Total Hours	5		File Archive - project files will be burned to CD.	
			Cost and Performance Report - The report will document the costs incurred during the RA in addition to the level of success of the remedy. Black & Veatch will prepare the report in accordance with the format specified in the TO.	

## 3.0 Quality Control Measures

Work activities on this TO will be conducted in accordance with the procedures defined in the Black & Veatch RAC II Quality Management Plan (QMP). Our QMP defines the authority, responsibilities, and procedures for QC. The implementation of QA policies begins as soon as the TO is received and continues throughout the planning, execution, and close out phases of the project. The formal review process is an effort to verify accuracy and validate the effectiveness and compliance of the work effort deliverable. The review team assembled for each specific task of this assignment will review all major deliverables. This procedure should expedite the EPA's review of submittals by ensuring that a sufficient degree of QC was maintained throughout the project providing work products that are conceptually correct, complete, easy to understand, and meets contract requirements in Revision 0 and subsequent deliverable revisions.

The Black & Veatch RAC II Program Quality Assurance Manager (QAM) or designee will be responsible for the management and performance of our internal review process. The QMP defines the focus of the formal review process as it relates to the type of deliverable. The TOM or an appointed Comment Resolution Owner (CRO), in conjunction with the program QAM, will schedule the necessary QC personnel for the review of deliverables submitted as part of this work effort.

Guidelines for QC review personnel necessary for any given deliverable are defined in the QMP and are dependent upon the type of review requested. The personnel utilized may fulfill several functions of the review process including: the CRO, discipline review, project review, and independent review.

The CRO will facilitate the scheduling of the review, assess comment disposition, verify accepted comments are adequately incorporated, and coordinate records retention. The discipline review may include several reviews from each member of a flexible, multi-disciplinary review team able to provide input into each area of specialization presented in a deliverable. Work products such as standard designs, drawings, specifications, and calculations will be checked in detail. The project review is conducted by someone other than the TOM or Black & Veatch professional that participated in the direct preparation of the work product. The project review ensures consistency with TO scope, COR specific requests, general EPA requirements and overall technical content. The independent review of deliverables will be conducted to ensure the deliverables are accurate, clear, concise, and conform to both corporate and EPA requirements.

Program Management, the QAM, or EPA requirements may indicate the need for periodic audits to verify that QA procedures are being consistently and correctly applied and that, when correctly applied, they are effective. Performance of an audit may be by the Program QAM, their designee, or other subject matter expert as required by the type of audit. Guidelines for the focus of an audit are presented in the RAC II QMP while the Black & Veatch Quality Management Policy dictates the procedures for the performance of the audit, documentation, and disposition of records. The audit report will contain a brief description of the audit; identification of compliance status; observations of best practice and non-conformances; and analysis of corrective action status if appropriate. The results of any audits performed by Black & Veatch on this TO will be submitted to RAC II Program Management, the QAM, and any other relevant parties as necessary.

# 4.0 Project Milestones

#### 4.1 PROJECT SCHEDULE

The project schedule for this TO will generally follow the schedule outlined in the SOW for the TO in terms of the order in which deliverables are to be submitted. Deliverable dates for document review comments and other support services will be based on individual documents and agreed to by both the EPA and the Black & Veatch TOM. The project schedule is provided in Table 4-1. In order to meet the period of performance end date for the TO the following assumptions were made in preparing the project schedule:

#### 4.2 PROJECT DELIVERABLES

Specific project deliverables are listed in Table 4-1 and defined in the SOW, along with the projected dates of submission and the number of copies required. Other project deliverables that require EPA input or approval but that are not specifically called out in the SOW are as follows:

- Monthly status reports including financial as well as performance information.
- Responses to comments from the EPA review of documents scheduled as deliverables.

#### 4.3 PROJECT STAFFING

Staff and managers proposed for this TO are presented in Table 4-2. As noted in the table, Black & Veatch may assign additional or alternative professionals and support staff with equivalent qualifications to lead and support the work.

### 5.0 Cost Estimate

The estimated project budget is based on projected cost considerations. Attachment B of this Work Plan provides a detailed cost estimate by task and subtask for the activities anticipated for the RD along with the assumptions used to compile these estimates.

# 6.0 Exceptions to Task Order, Anticipated Problems, and Special Requirements

Listed below are certain WBS elements, listed by task, that were included in the SOW, Attachment 2, WBS, dated August 27, 2015, that were not specifically tasked during the scoping meeting or subsequent conversations with the EPA; therefore, no costs or scope has been provided in this Work Plan.

This section describes anticipated problems, possible changed conditions, or special requirements that may be associated with this TO and are not covered by the Work Plan cost estimate provided in Attachment B. Should unforeseen factors arise, or if the current SOW is changed, the EPA will be properly notified and any necessary modifications to the TO will be made to adjust for the changes. It is understood that such changes require the approval of the COR.

#### **6.1 EXCEPTIONS TO TASK ORDER**

Task 1 – Project Planning and Support.

- 1.1.3 Negotiate Work Plan and Cost Estimate. No costs were included for the subtasks.
- 1.3.2 Participate in meetings/communicate routinely/prepare meeting minutes. Addressed in Subtask 2.1, Project Meetings.
- 1.3.3 Accommodate EPA Audit. Black & Veatch will accommodate any external audit or review mechanism the EPA shall require. No costs are included for this subtask.

#### 6.2 ANTICIPATED PROBLEMS

As with any remedial planning project, problems and issues do arise that must be resolved in order to complete the project in a timely manner. The contingency plan, which is presented in Table 6-1, has been developed to address such areas of concern. Several potential issues have been listed to demonstrate how these issues will be addressed during the course of the work assignment. While this list is not all-inclusive of the problems or issues that may arise, it offers guidance on how such areas of concern will be handled.

#### **6.3 SPECIAL REQUIREMENTS**

No special requirements have been specified for this TO at this time.

# **Tables**

	Table 4-1. Schedule of Deliverables/Project Schedule							
Task	Deliverable / Milestone (WBS)	Copies	Milestone/Due date

NAME OF OFFEROR OR CONTRACTOR

BLACK & VEATCH SPECIAL PROJECTS CORP.

TEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	When the contractor has reason to believe				
	that the costs for this task order, which				
	will accrue in the next thirty (30) days,				
	will bring the total cost of this task				
	order over seventy five (75) percent of the				
	available funding specified in the task				
	order, the contractor shall notify the				
	Contracting Officer. Additional funding as				
	needed shall be provided incrementally				
	through a task order modification.
