

PRE-CONSTRUCTION AFFIDAVIT

I, the undersigned, a registered professional engineer in the State of Alabama and having sufficient geotechnical engineering experience to qualify me to do this type of work, do hereby affirm that I have been informed by the Department of Planning, Engineering & Permits of the City of Birmingham and do myself personally understand that the construction proposed to be undertaken at the following described location:

may, by virtue of the surface ground slope and/or subsurface soil conditions, require special footings, foundations and/or retaining walls; and, accordingly, have inspected and studied the above described site and the footings, foundations and/or retaining wall drawings titled:

Prepared by:

that has been filed with the Department of Planning, Engineering & Permits for the purpose of obtaining a Building Permit; do certify that they are consistent with acceptable engineering practice for the ground slope and/or subsoil conditions and the Building Code of the City of Birmingham, Alabama.

I do further certify that I have been retained to periodically observe and inspect the actual construction of the footings, foundations and/or retaining walls and, upon there completion satisfactory to me, will submit a Post Construction Affidavit to the Department of Planning, Engineering & Permits certifying that said footings, foundations and/or retaining walls were constructed in substantial compliance with the geotechnical plans, specifications, drawings and other construction documents filed with the department of Planning, Engineering & Permits.
